European Air Movement and Control Association

EC-327/2011 Monitoring and Verification Programme

1. Purpose

The purpose of this monitoring and verification programme is to prescribe procedures to be used to obtain the European Air Movement and Control Association verification of compliance with the fan efficiency requirements found in the European Commission Regulation (EU) No 327/2011 of 30 March 2011. This program applies to Tier 1, Tier 2, and future requirements as they may be instituted by the EU Commission.

2. Product scope

Products under the scope of this programme are those defined in Commission Regulation (EU) No 327/2011 of 30 March 2011.

3. Eligibility

Any person, firm or corporation, whether a member of AMCA International or of the European Air Movement and Control Association or not, engaged in the business of placing fans on the EU market shall be eligible to participate in this programme. For further clarification, see Directive 2009/125/EC Article 4.

4. Administration

4.1 Administrator

The administration of the EC-327 Monitoring and Verification Compliance Programme shall be the responsibility of the Board of Directors of the European Air Movement and Control Association and staff of the European Air Movement and Control Association.

4.2 Promotion of the Label

The staff of the European Air Movement and Control Association shall be responsible for promoting the use of the European Air Movement and Control Association EC-327 Monitoring and Verification Label and the programme it supports.

4.3 Registering complaints

Complaints regarding ratings, products, or misuse of the European Air Movement and Control Association Monitoring and Verification Label shall be addressed to the European Air Movement and Control Association. These complaints shall be in writing and shall be accompanied by supporting evidence.

4.4 Confidentiality

The European Air Movement and Control Association shall keep all laboratory information, test data, and related communications confidential, but shall provide test results to government approved
